

Turbo Metallica – Luxury Metallic Emulsion

Dazzle That Lasts. Protection That Performs.

Bring brilliance and resilience together with Turbo Metallica, a pure acrylic emulsion-based metallic coating designed to transform ordinary surfaces into shimmering statements of luxury. Its lustrous metallic finish and strong durability make it a versatile choice for both decorative and protective applications.

Key Features & Benefits

Lustrous Metallic Sheen

Rich dazzle and brilliance for an opulent finish.

Universal Applications

Perfect for plasters, concrete, temple domes, MS structures, and both exterior & interior walls.

High-Performance Adhesion

Bonds strongly to varied substrates, ensuring lasting results.

Flexible & Durable

Pure acrylic emulsion provides flexibility, preventing cracks and ensuring long-term performance.

Weather & UV Resistance

Fade-resistant metallic shine that endures sun, rain, and humidity.

Luxury Reimagined

Adds an unmatched premium feel to architectural and artistic surfaces.

Applications

Temples & Heritage Sites

For domes, idols, and ornate finishes requiring brilliance and durability.

Architectural Elements

Accent walls, facades, pillars, and decorative concrete.

Metal Surfaces

Ideal for MS structures, railings, signage, and trims.

Interiors & Exteriors

Adds dazzle and sophistication to both indoor walls and outdoor surfaces.
